

Oscar Alejandro Vaca Lopez

SYSTEMS ENGINEER | IT SUPPORT | PROCESS AUTOMATION

Irapuato, Guanajuato, Mexico +52 462 100 9235 oscaralejandrovacalopez@gmail.com LinkedIn GitHub

PROFESSIONAL PROFILE

Systems Engineer focused on IT operations, technical support, automation and AI implementation. Hands-on experience in production environments, ensuring reliable infrastructure, connectivity and business systems.

I build solutions with Python, Odoo, IoT devices (Raspberry Pi / ESP32) and AI assistants to optimize processes and align technology with business needs.

TECHNICAL SKILLS

FRONTEND

- HTML5 / CSS3
- JavaScript
- PHP

BACKEND

- Python
- Odoo / ERP
- REST APIs

DATABASES

- MySQL / MariaDB
- SQL Server

TOOLS

- Git / GitHub
- AWS Cloud
- Raspberry Pi / ESP32

ARTIFICIAL INTELLIGENCE

- AI Agents & intelligent automation
- OpenClaw Platform (autonomous assistants)
- LLMs, AI APIs & agent integration

Time Management

PROFESSIONAL EXPERIENCE

Systems Engineer / IT

Paraíso Natural - Health Food Store | February 2026 - Present | Full-time, Irapuato

- POS system migration and administration to optimize sales and inventory operations.
- Developed Python scripts to automate inventory, warehouse and payroll processes.
- Security camera installation, WiFi networks and computer equipment maintenance.
- Website development and digital presence management for the business.
- Implemented AI assistants and intelligent automation for administrative tasks.
- General IT support, incident resolution and infrastructure maintenance.

Security Cameras

Systems Engineer / IT

Comercializacion Diem del Bajío S.A. de C.V. | May 2025 - February 2026 | Full-time

- Maintenance, installation and configuration of security cameras and monitoring equipment.
- Support and functional adjustments in Odoo, including modules and operational improvements.
- End-to-end network support: access point deployment, troubleshooting and connectivity stabilization.
- Warehouse connectivity via antennas, link configuration and communication incident resolution.
- Configuration and maintenance of printers, PCs and end-user computing devices.
- Development of Python scripts and programs to automate internal processes.
- Implementation of Raspberry Pi solutions for specific operational requirements.
- Logistics process understanding to propose future technology implementations.

Odoo

Networking

IT Support

Python

Raspberry Pi

Security Cameras

IoT Intern - Industry 4.0

Kromberg & Schubert Mexico | 2025 (Professional Internship)

- Implemented strategic IoT solutions on production equipment (Komax machines) using Raspberry Pi and ESP32.
- Real-time monitoring and optimization of production lines aligned with Industry 4.0 requirements.
- Built an intelligent ecosystem to improve operational efficiency and overcome legacy hardware limitations.

IoT

Raspberry Pi

ESP32

Industry 4.0

Python

CERTIFICATIONS & OTHER

- AWS Cloud Practitioner Essentials (2024)
- AWS Cloud Fundamentals (2024)
- What is Cloud Computing? AWS (04/2024)
- Laptop Repair Technician (2021)
- English B1

EDUCATION

B.S. in Computer Systems Engineering

ITESI - Irapuato, Guanajuato | 2020 - 2026

Networking specialization. Projects include a telemedicine solution with Alexa and IoT, object detection with ESP32-Cam and Python, and a Raspberry Pi + MariaDB sensor ecosystem.

Industrial Maintenance Technician

CECyTEC - Irapuato, Guanajuato | 2017 - 2020

Technical degree in industrial systems maintenance. Final project: autonomous line-following vehicle for tool distribution across workstations.

Personal Projects - AI & Automation

Independent projects | 2025 - Present

- Deployed autonomous AI assistant (HMSAlice) on OpenClaw platform, integrated with Telegram, WhatsApp, web scraping and IoT automation.
- Implemented multi-model AI Agents (DeepSeek, GPT, Claude) for business automation using MCP protocols and APIs.
- Built full AI ecosystem on Raspberry Pi 4 with local models (Ollama), speech-to-text (Whisper), TTS and 24/7 services.

OpenClaw

DeepSeek

AI Agents

Raspberry Pi

Python

LLMs

AWS Cloud Certifications

Amazon Web Services | 2024

AWS Cloud Practitioner Essentials, AWS Cloud Fundamentals and "What is Cloud Computing?" program.
